# PACKAGE & PROGRAMS

## NFI Certification Package Includes:

- The current reference manual for the course (Third Edition for Wood, Gas and Pellet).
- The six-hour Review Course taught by an NFI Certified instructor.
- The exam
- Classroom setup and materials, lunch and breaks

Upon completion, and with a passing grade, candidates will receive NFI Certification credentials, including ID cards with photograph, listing on the NFI website, and a press package to promote your certified status. Certificates are good for three years and, with appropriate CEU's earned, can be renewed indefinitely. Candidates who do not earn the required CEU's for renewal have the opportunity to retest at a reduced cost.

**PLEASE NOTE:** Review of these materials will greatly enhance your chance of passing the exam. The review sessions are planned only as a **review** of the expanded manual content.

**Review starts promptly at 8:00AM!**

**READ and STUDY the Reference Manual!!!**

## NFI Certified Gas Specialist

This certification is for professionals who install or plan gas hearth appliance systems and covers the installation knowledge specific to gas appliances and venting, including regulations and instructions, fuel delivery, appliance requirements, venting and ventilation, and troubleshooting. All major gas hearth appliances: fireplaces, gas log sets, inserts, and freestanding stoves; and venting methods; including conventional Type B vent, direct vent, liner systems, and vent-free are covered.

## NFI Certified Woodburning Specialist

This certification covers both solid fuel factory-built fireplaces and all types of wood stoves, including freestanding, inserts, and manufactured high efficiency fireplaces. In addition to core knowledge pertaining to woodburning appliances, installation and planning knowledge includes solid fuel appliance regulations and instructions, appliances, venting and ventilation, and troubleshooting.

## NFI Certified Pellet Specialist

For professionals who plan and install pellet hearth systems, this certification covers the different approaches to pellet appliance fuel delivery, heat transfer, and venting systems. Planning, installation and troubleshooting knowledge covered includes such subjects as appliance components, electrical requirements, vent configurations and assembly, and common causes and solutions for pellet system problems.
